

## Show Car Winner 1989 Chevrolet Corvette

Price: \$20,000.00

### *Description / Remarks*

**Show Car Winner 1989 Chevrolet Corvette.** 39,600 miles, Custom \$10,000.00 Show Paint, Glass Top, New Complete Brakes, Roll bar, Racing Belts, Top Gauges, Race Suspension, Corvette Challenge Seats, 5 Sets Tires/Custom Wheels, plus Competition Tires, Garage kept climate controlled, Car covered, Much more and parts. Just to let you know a few facts, this corvette is a world of wheels custom car show winner with a \$ 10,000.00 custom paint job. It is also race prepared and functional with a formula 1 style racing suspension (the car is only 3" off the ground) and transmission as well as other motor modifications done by the late Mr. Lingenfelter's shop. It has a roll cage, actual Corvette Challenge racing seats and a five point racing belt set-up (also have original factory seats), fully set up racing gauge instrumentation and the wood grain dash panels upgrades. I just put on \$800.00 worth of new heavy duty brake pads, rotors and upgraded mounting hardware 50 miles ago. This corvette showed in the race prepared custom car class and is a real head turner. It has a 1990 Greenwood body and ground effects kit and rear spoiler plus the original ground effects and extra rear spoiler. There are Boyd wheels on the car now plus a set of gold honeycomb show wheels, a set of proto type factory wheels (never went into production), a set of standard factory wheels for 1989 corvettes and a set of polished aluminum racing wheels. There are plenty of competition racing tires and NASCAR style hot lap compound tires. It is stored in a heated and carpeted garage space and has an inflatable zippered storage bubble as well. This is not your normal car, it is maintained to high racing standards with all top quality parts, and it is like new and driven very little. This corvette is one of a kind and priced reasonably at **\$ 20,000.00** for everything.
